

# TSK 154736 IBM CLOUD ACCOUNT

The screenshot shows the IBM Cloud Dashboard. The top navigation bar includes the IBM Cloud logo, a search bar, and links to Catalog, Manage, and the user profile (SUSHANTH KRISHNAM...). The dashboard features a 'For you' section with several cards: 'Build' (Explore IBM Cloud with this selection of easy starter tutorials and services), 'Create and deploy an application' (Browse our starter kits, and then select one to jump start the process to create and deploy your app), 'Use Cloud Foundry' (Deploy and run your applications without managing servers or clusters with IBM Cloud Foundry), 'Create a Kubernetes cluster' (Automate deployments and manage your containerized apps in a native Kubernetes experience), 'Create an OpenShift cluster' (Deploy apps on highly available clusters with Red Hat OpenShift on IBM Cloud), and 'Get Started with Watson Studio' (Get started with using Watson Studio and Cloud Object Storage in 15 minutes). Below this, there are sections for 'News' (Announcing IBM Cloud Pak for Network Automation Version 2.4), 'Recent support cases', 'Planned maintenance', and 'IBM Cloud status'.

The screenshot shows the IBM Cloud Resource list page. The top navigation bar is the same as the dashboard. The main content area is titled 'Resource list' and includes a 'Create resource' button. Below the title is a table with columns: Name, Group, Location, Product, Status, and Tags. The table has a search bar and filters for each column. The resources are listed in a tree view under the 'Name' column, showing categories like Compute (1), Containers (0), Networking (0), Storage (0), AI / Machine Learning (0), Analytics (0), Blockchain (0), Databases (2), Developer tools (3+), Logging and monitoring (0), Migration (0), Integration (0+), and Internet of Things (1).

Name	Group	Location	Product	Status	Tags
Filter by name or IP address...	Filter by group or org...	Filter...	Filter...	Filter...	Filter...
▼ Compute (1)					
▼ Containers (0)					
▼ Networking (0)					
▼ Storage (0)					
▼ AI / Machine Learning (0)					
▼ Analytics (0)					
▼ Blockchain (0)					
▼ Databases (2)					
▼ Developer tools (3+)					
▼ Logging and monitoring (0)					
▼ Migration (0)					
▼ Integration (0+)					
▼ Internet of Things (1)
